

## **Mayne Island Recycling Society Annual General Meeting**

**June 13 2024**

### Depot Manager's Report

The year has so far been incident and injury free. Customers seem satisfied with the facility and staff—certainly no one has reported any issues to the contrary.

The truck and forklift are working fine. The volunteers are excellent as ever and more are coming on board in time for July and August when we'll be open on Fridays.

Backhauls have been busy with a waitlist of six to eight people since early spring.

The biggest change is that Encorp no longer accepts the tote and bag estimates and requires us to count all deposit containers and separate standard-size domestic beer. This means a lot of extra work and noise for staff, and confusion for the public.
